

WANTED

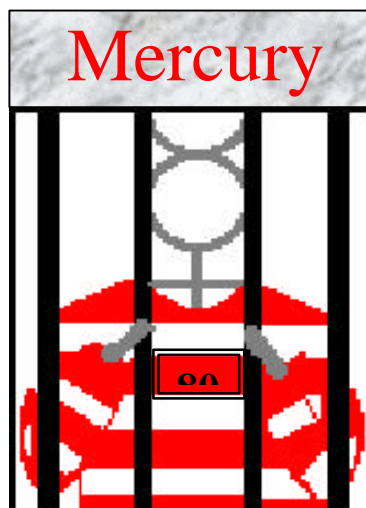

DEADLY IN LARGE DOSES

IF YOU ARE **ALIVE**

Guilty of:

- Accumulating in the environment
- Contaminating fish and wildlife, causing consumption advisories in over 350 Wisconsin lakes and streams
- Poisoning human nervous systems
- Costing taxpayers and homeowners thousands of dollars in cleanup efforts

Last seen in bulk form in school science labs. Other known hideouts include thermometers, blood pressure gauges, barometers, thermostats, switches, button batteries and manometers.

alias Quicksilver

REWARDS

\$5 per thermometer

\$20 per blood pressure gauge

\$50 per atmospheric barometer

Rewards recognize your environmental stewardship and will help fund replacement equipment.

Rewards may NOT be used to purchase mercury or mercury-containing devices.
